

IGC SERVICE RIFLE OPERATIONAL PLAN FOR COVID-19 ERA

- 1.) Upon arrival first report directly to the Range Safety Officer (RSO) for instructions
- 2.) Shooters will have correct change, still one flat fee of \$5.00.
- 3.) Shooters will supply their own eye protection, hearing protection, spotting scope, shooting mats, stapler/staples for putting up their own targets and pencil for scoring. Bring your own ammo as no ammo will be available for purchase.
- 4.) Each shooter will be assigned their own sanitized paster box and clipboard. Please keep track of your assigned items.
- 5.) No equipment sharing unless you live under the same roof.
- 6.) **Shooters with any kind of cold or flu symptoms must cancel.**
- 7.) Shooters are asked to supply their own hand sanitizer or wipes for their use.
- 8.) Everyone is asked to keep 6 feet from each other. To assist with this, all shooting lanes will not be utilized to help maintain the 6 feet distancing.
- 9.) The RSO's main objective is FIREARM SAFETY. If you have any issues with the RSO having to physically intervene for a firearm safety issue, then we ask that you do not participate.

10.) All shooters are personally responsible for their own Covid-19 management. If you choose to wear your own mask or gloves that is perfectly acceptable if it does not create a firearm safety risk.

11.) The Range Safety Officer is to prioritize Firearm Safety, not virus safety.
