

Itasca Gun Club Safety Policy for Sight In Days

IGC's priority at any event is safety. Firearm safety is the top priority.

Personal safety:

It's unrealistic for IGC to sanitize and re-use earmuffs for up to a thousand shooters. We will provide disposable foam earplugs, and if you have safety glasses, bring them. We will have limited shooting glasses available. Bring your own shooting muffs if you prefer those over plugs.

Firearm safety:

All firearms must be unloaded. The only time a firearm is loaded is when a shooter is stationed at a bench and is ready to fire at targets. Firearms are loaded one round at a time regardless of the type of action or type of magazine.

When you arrive, a Range Safety Officer will check your firearms(s) to verify that they're empty. Every now and then a firearm will turn out to have been put away loaded the previous year.

COVID Safety:

With restrictions gone, please generally distance yourself from others.
